He is member of numerous National and International Scientific Associations, including the Società Italiana di Endocrinologia, the Società Italiana dell'Osteoporosi, the Società Italiana di Metabolismo Minerale e delle Malattie dello Scheletro, the European Thyroid Association, the American Thyroid Association, the Endocrine Society, the American Society of Bone and Mineral Research

Founding Member and current Chairman of The European Group on the Classification of Orbitopathy.

Past President Società Italiana dell'Osteoporosi, del Metabolismo Minerale e delle Malattie dello Scheletro,

His major scientific interests are parathyroid and thyroid diseases, and particularly primary hyperparathyroidism and Graves' orbitopathy. Over the last 10 years he has contributed original work on the management of Graves' orbitopathy, on the calcitonin receptor, on clinical aspects of primary hyperparathyroidism and on the molecular mechanism of parathyroid tumorigenesis.

He is Author of more than 300 scientific papers, most of which published in prestigious international journals, and of numerous chapters in important international volumes. Associate Editor of the book: "The Parathyroid. Basic and Clinical Concept; 3rd Edition"
